

## Medical Re-admittance Form

Your child has been sent home because he/she shows signs of illness. Your child can be readmitted to school when one of the following has been met:

### If the child has seen the doctor:

- A doctor's re-admission form is submitted stating the diagnosis, the date the child can return and that he/she is no longer contagious.

### If your child does not see a doctor:

He/she has been:

- observed to be symptom free for at least 1 full day following a fever or diarrhea.
- free of suspicious rash.

For example, if your child is sent home on Monday, he/she must be observed at home on Tuesday before returning on Wednesday.
